[wikipedia](#)

“WordPress is web software you can use to create a beautiful website or blog. We like to say that WordPress is both free and priceless at the same time.” WordPress.org

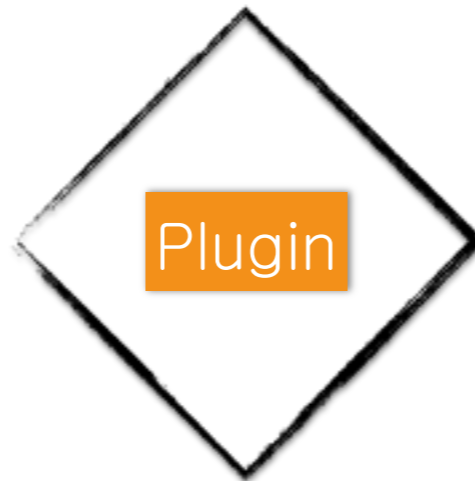

WordPress Themes are files that work together to create the design and functionality of a WordPress site.

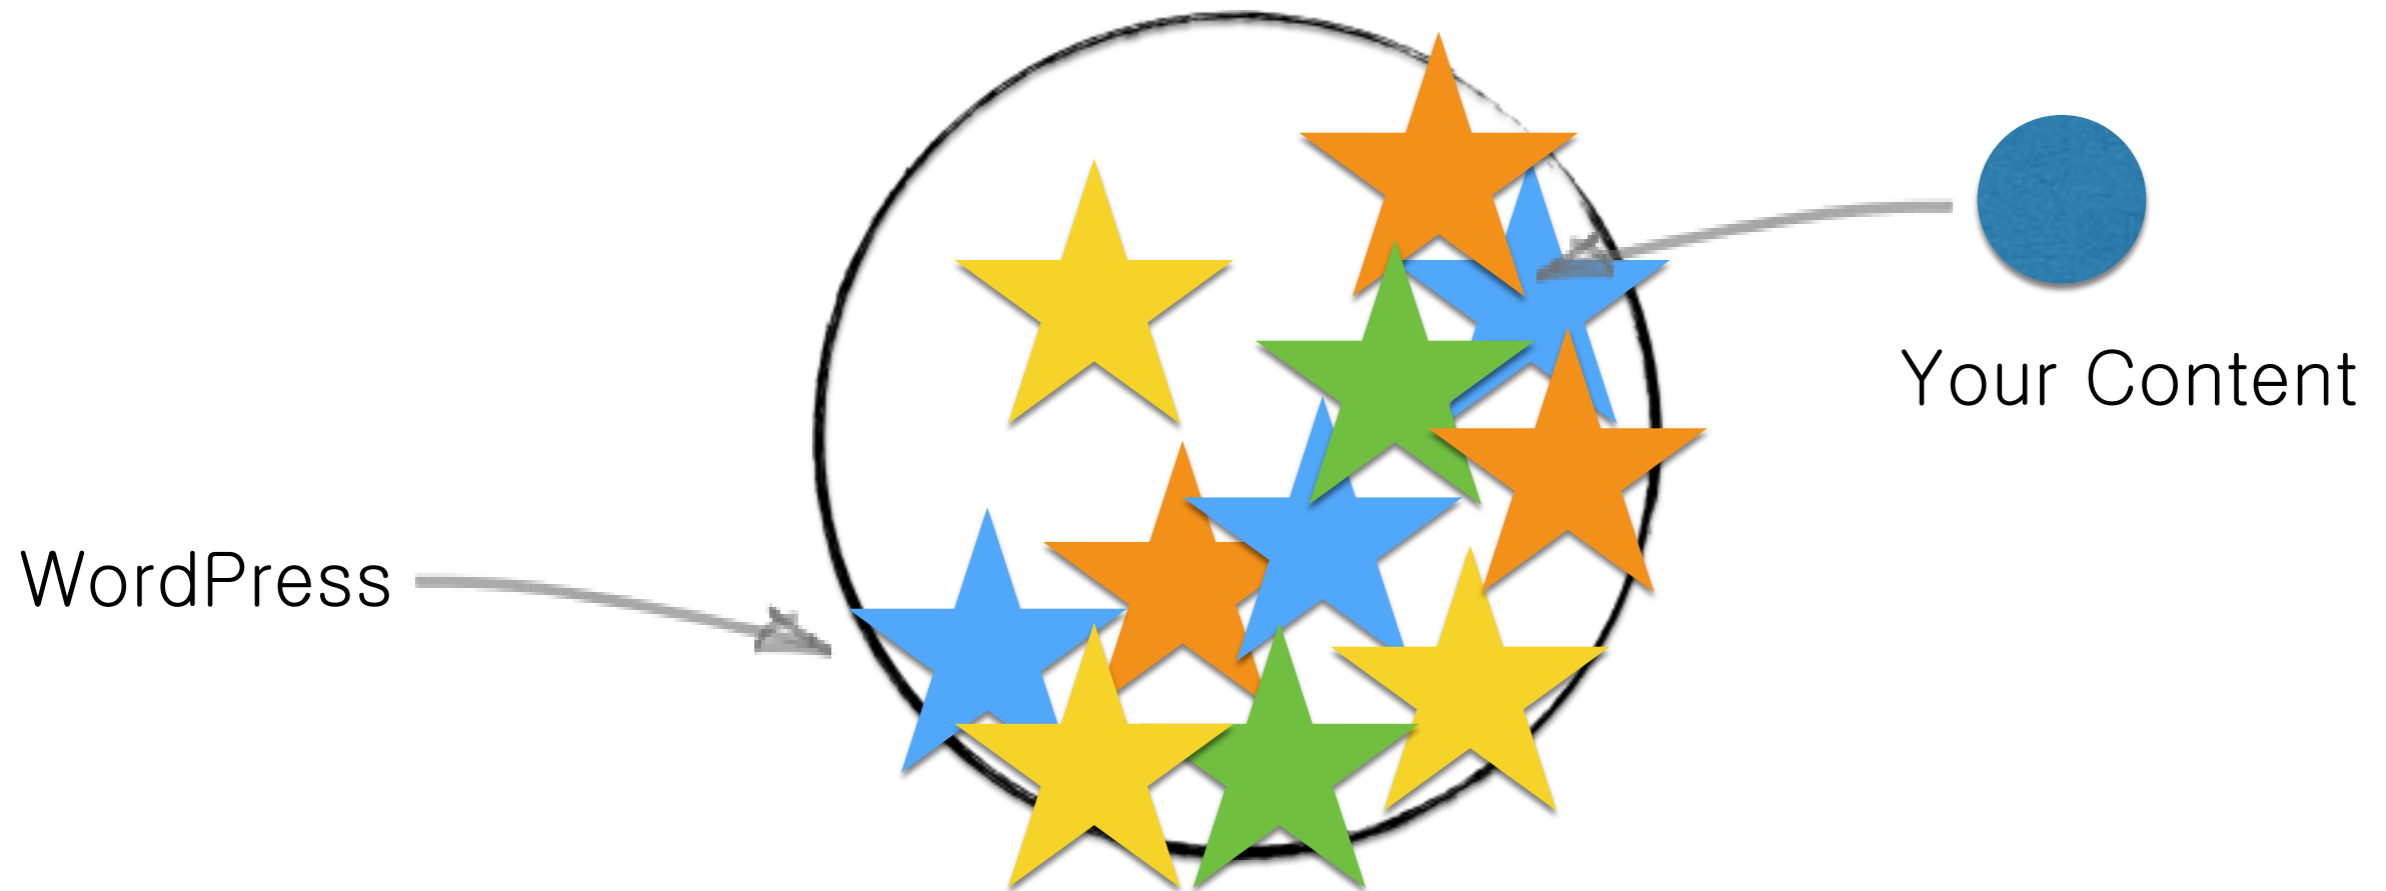

Each Theme may be different, offering many choices for site owners to instantly change their website look. WordPress.org

Plugins are ways to extend and add to the functionality that already exists in WordPress. WordPress.org

For What?

Beautifully display your content to the world.

Okay. Let's make a WordPress Website in 8 steps.

Confident &

1. Find Your Content.

Let's get in

2. Refer to other websites.

*Only when

3. Search themes and plugins.
